

# Product Photography

(In a time of toilet  
paper shortages)

# Hey There! I'm Stephanie Cowan

I am a Photographer and Brand  
Strategist in NYC.

# My goal as a photographer is to capture joy.

I love to photograph vibrant  
storylines that make the viewer  
feel connected to the product.

**This week  
everything seemed  
to flip upside down.**

How are you doing? I am hanging in there. :)

# The whole world is working from home.

Which means you may need product photography for your brand and no longer have access to your production space.

# Look no further!

I have a full photo studio at your service!  
Your product is EPIC and now is a good time to gather social media content that is relevant! With everyone sitting on the couch looking at their phones, now is the time more than ever to create a data bank of elevated photos for your brand!

**I would love  
to bring your  
products to  
life in my  
studio.**

(special quarantine rates apply!)

# How it works:

Each of my shoots come with a pre-shoot consultation. Together we talk through concept and goals for the shoot.

# Then, you send me your products..

09

Once your products arrive, I will curate a custom shoot using props and color backdrops to create a custom, joyful narrative for your brand.

# Want to get in on the action?

You can! During the shoot we can virtually connect for any creative direction or notes you may have. It's important that you get as much out of this shoot as possible!

# An Album of edited photos will be delivered within 3 days.

You will have your custom photos before you can say "Pass the Hand Sanitizer!"

**Sometimes we  
have to get a bit  
creative!**

**Let's use this WFH time for good and  
get as many eyes on your product as  
possible! Thank you for your time! I look  
forward to seeing what we create!**
